

# 'Decision-making around the railway' activity worksheet

7-11 years

When it comes to the railway, making the wrong decisions can lead to accidents. It's important to understand how our choices can impact our safety and the safety of others. Listen to the story about a group of friends who have important decisions to make related to rail safety. For each section, circle the correct decision the friends should make.

## Decision 1

### The shortcut

Should the friends use the shortcut along the train tracks or use the pedestrian bridge?

- a) Use the shortcut
  - b) Use the pedestrian bridge
- 

## Decision 2

### The phone

Should the friends try and retrieve the phone or move away from the tracks and leave the phone?

- a) Retrieve the phone
  - b) Leave the phone where it is on the tracks
- 

## Decision 3

### The ending

Should the person who dropped the phone make up a story for their parents or should the group own up and call for help?

- a) The person who dropped the phone should tell their parents a made-up story
- b) The group should call for help and tell the truth
